

FOR IMMEDIATE RELEASE

**DMAILER SIMPLIFIES PORTABLE OFFICE EXPERIENCE  
WITH LATEST DMAILER SYNC SOFTWARE RELEASE**

*Dmailer Offers Users "Five Apps In One" – Skype Integration, Data and Email Synchronization, Data Security and Dmailer Online Backup Service*

**MARSEILLE, FRANCE/CHICAGO, IL. Oct. 27<sup>th</sup> 2009** - [Dmailer](#), a leading provider of portable backup and synchronization solutions, today introduced the latest version of its flagship software product, Dmailer **Sync V9**. **Dmailer Sync** makes the office completely portable for mobile users by bundling popular third-party communications software and office productivity tools for use with USB and portable hard drives.

**Dmailer Sync V9** includes the following major new features:

- **Skype Integration** - Dmailer Sync, with its unique zero installation functionality, is now bundled with Skype, allowing users to call their Microsoft Outlook contacts directly through the application. Users can insert their drives loaded with Dmailer Sync into any computer in any location and make free Skype-to-Skype calls or reduced-cost calls to landlines and mobile phones.
- **Outlook Web Access/Exchange Server Synchronization** - Dmailer Sync can now completely synchronize with the Microsoft Exchange Server even when access to Microsoft Outlook is unavailable. This ensures that user data (email, calendar, contacts, tasks, etc) is always updated, even when users are traveling.

"Dmailer Sync V9 ends mobile professionals' long and often frustrating search for the fully functional home office by bringing commonly used office apps to USB drives," said Lucas Leonardi, CEO of Dmailer. "Users can now maximize their time away from the office and be completely connected and ultra productive thanks to the portability, security, reliability and overall ease of use of Dmailer Sync V9. "We're extremely pleased to be working with Skype to further enhance our data mobility solution and deliver a truly portable office."

Dmailer Sync V9 also includes the recently announced online storage service, [Dmailer Online](#), which allows users to safeguard data by backing up secure copies to a remote server for easy access from any computer. Large files that may take up too much space on traditional storage devices can easily be managed in this format. The new release also includes 128-bit AES encryption for local synchronization.

### **Configurations, Pricing and Availability**

Dmailer Sync V9 is available today for \$39.95. Dmailer is offering all Dmailer Sync V9 users a free 30-day trial of its 3GB configuration. Users may choose from one of the three Dmailer Online subscription plans; \$5.99 a year for 3GB of storage, \$34.99 a year for 30GB storage and \$69.99 a year for unlimited storage. Dmailer Sync V9 is available immediately for download in 19 languages at <http://www.dmailer.com>.

### **About Dmailer**

Established in 2001 and headquartered in Marseille, France, Dmailer ([www.dmailer.com](http://www.dmailer.com)) provides affordable, highly reliable and easy to use portable backup and synchronization solutions. Dmailer products are sold directly to consumers and small business owners through numerous channels, including its corporate Web site, international distributors and through manufacturers of mobile devices including USB flash drives, memory cards, external hard disk drives, mp3 players, embedded phone memory, SIM cards and flash based memory cards for mobile phones. The company's flagship product, Dmailer Sync, is currently available in 19 languages, sold in over 130 countries worldwide with more than 50 million copies shipped. It is bundled with SanDisk, Western Digital, Lexar and LaCie portable storage products worldwide.
