

## For Immediate Release

### **Dmailer positions itself 40<sup>th</sup> in the classification Technology Fast 50 2008 of Deloitte.**

Dmailer attributes its growth rate of 696.26 % to the 2.5M€ VC funding received at the beginning of this year and to new partnerships with companies like Imation and Verbatim, leaders of external storage peripherals.

**Marseille, France, December 5th, 2008** - Dmailer announces its 40<sup>th</sup> placement in the Deloitte Technology classification which rewards technological companies with strong growth. Places in the classification are awarded according to the growth rate of the turnover on five consecutive fiscal years, from 2003 to 2007. Dmailer showed a 696.26 % growth rate during this period.

Lucas LEONARDI, CEO, declares that thorough its VC funding received and new partnerships established, the company has been able to achieve consistent growth in the last 5 years. "As you know, this year, we have experienced strong growth in several areas, including new partnerships. We have expanded our product line offer and product features to provide you with enhanced data mobility and security needed by today's business travelers. Our flagship product, Dmailer Sync, is currently available in 19 languages and we have sold up-to-date more than 30 million licenses in more than 130 countries. The fact that we were selected by one of the world's leading data storage media technology developers is testimony to the fact that Dmailer's software is the only technology that really enables customers to use any PC as if it was their own. Our ability to understand the needs of mobile users is what has made us the market leader" says Leonardi.

"Appearing on the award list of Technology Fast 50 of Deloitte means being a part of French leaders during 5 years, which demonstrates exceptional qualities in the highly competitive arena of technology" says Eric Morgain, Deloitte partner responsible for the program Technology Fast 50 of Deloitte. "We strongly congratulate Dmailer for positioning itself 40<sup>th</sup> place on the (French) national classification and 263rd place of the prize list Fast 500 EMEA. Dmailer deserves all our deepest congratulations on this surprising growth," added Morgain.

#### **For reference, criteria for the award list Technology Fast 50 are:**

- To be a technology company, meaning to be owner of a patented technology, either to make a technological product, or to dedicate at least 15% of its revenue to R&D.
- Have revenues of, at least, 76,000 Euros for the fiscal year on 2003.
- Have its main offices in France and be controlled no more than 50% by another group (French or foreign).
- Having reported at least 4 fiscal years of 12 months.

#### **About Technology Fast 50 program**

The Technology Fast 50 program was born in 1995 in San Jose, California, in the heart of Silicon Valley, and was then expanded throughout the United States, United Kingdom, Canada, Netherlands, Israel and France. Today Deloitte is present in more than 40 countries and regions throughout the world. It was created to highlight remarkable contribution of technology companies to growth of economies.

#### **About Deloitte**

"Deloitte" is the brand under which tens of thousands of dedicated professionals in independent firms throughout the world collaborate to provide audit, consulting, financial advisory, risk management, and tax services to selected clients. These firms are members of Deloitte Touche Tohmatsu (DTT), a Swiss Verein. Each member firm provides services in a particular geographic area and is subject to the laws and professional regulations of the particular country or countries in which it operates. DTT helps coordinate the activities of the member firms but does not itself provide services to clients. DTT and the member firms are separate and distinct legal entities, which cannot obligate the other entities. DTT and each DTT member firm are only liable for their own acts or omissions, and not those of each other. Each of the member firms operates under the names "Deloitte," "Deloitte & Touche," "Deloitte Touche Tohmatsu," or other related names. Each DTT member firm is structured differently in accordance with national laws, regulations, customary practice, and other factors, and may secure the provision of professional services in their territories through subsidiaries, affiliates and/or other entities.

#### **About Deloitte in France**

In France, Deloitte is member of Deloitte Touche Tohmatsu with professional services provided by its 6000 members in subsidiaries and affiliates.
