

## DmailerSync Plus: Smarter and Better

**Paris, June 14, 2006** - DmailerSync and ExpressSync, the synchronization and backup software solutions for Outlook and Outlook Express now combine to become DmailerSync Plus, the only software that allows you to retrieve messages from your Outlook and Outlook Express mailboxes from any computer, even if the Microsoft messaging solutions are not installed.

Dmailer now brings a single and superior solution for backup and synchronization: DmailerSync Plus. DmailerSync Plus benefits from all features from earlier solutions and offers synchronization with Outlook, Outlook Express or both.

DmailerSync offers advanced security with 128 bits AES encryption while backup and synchronization features remain as user-friendly as ever:

1. Download DmailerSync Plus on a mobile device of your choice (USB Flash Drive, SD memory card, external hard disk, iPod, MP3 players, Portable PlayStations).
2. Transfer on this device e-mails, contacts, attachments, and calendar from Outlook or Outlook Express. To synchronize mailboxes from both messaging software, simply create two distinct profiles. Want to carry your pictures, music, Word documents and Excel spreadsheets wherever you go? Well, just backup and synchronize them.
3. Borrow a PC from your manager, a colleague, a friend, or even a rival, in a cybercafé, in New York, in Tokyo or elsewhere. With DmailerSync Plus, you have total freedom to reply to your emails wherever you are.
4. Return back home: connect your mobile device to the PC. DmailerSync Plus automatically makes all the updates. The data on your mobile device and your PC are in sync.

### **DmailerSync Plus:**

Compatible with Outlook® 2000, 2002, 2003 and Outlook Express® 5.5 and above.

Microsoft Windows © 2000, XP Home and Professional, Microsoft Exchange © 5.5, 2000, 2003.

Free trial for 30 days, then just \$39.95 (€ 34.95).

Size: less than 3 Mb

**!! New!! From June 1, 2006, DmailerSync Plus is available as WD Sync in the WD Passport and WD Passport Pocket external hard disks from Western Digital, the pioneer in data storage and world leader in the hard disk industry.**

### About Dmailer :

Dmailer is a private-held software vendor company based in Marseille, France and led by Lucas Léonardi. The company designs synchronization and back-up applications for external drives (USB drives, external hard disks, SD memory cards, MP3 players, iPods, etc.). The Dmailer technology is embedded as CruzerSync in the SanDisk Cruzer USB smart drive. It also comes as WD sync in the WD Passport and Pocket external hard drives from Western Digital. The software is U3 smart and can be used with any U3-powered smart drives. More info on [www.dmailer.com](http://www.dmailer.com)
